Sprint #0 Report

Instructions

Objectives

- Make decisions on the Solitaire software development project.
- Learn unit testing and GUI programming in the language of your choice.

Deliverables and Grading Policy

Read the “CS 449 Homework Overview” document **carefully** and make the key decisions for the software development. Use the following template to complete your report.

1. Key Decisions of the Solitaire Project (2 points)

Topic	Decision
Object-oriented programming language (if not using OOP, then justify the use of the language)	Python
GUI library (strongly encouraged)	Tkinter
IDE (Integrated Development Environment)	Visual Studio Code
xUnit framework (e.g., JUnit for Java)	Unittest, built in library
Programming style guide (must read it carefully)	Google Python Style
Project hosting site	Github.com
Other decisions if applicable	N/A

- Google Python Style Guide: <https://google.github.io/styleguide/pyguide.html>

2. Unit testing (4 points)

Find a tutorial on the unit test framework you have chosen and write at least two xUnit tests of a program you have written or found elsewhere. Attach here (1) the screenshot of your program execution and (2) the source code of your program.

unittest: <https://docs.python.org/3/library/unittest.html>

```
Choice of operation:
1 - Add
2 - Subtract
3 - Multiply
4 - Divide
q - Quit
Enter Choice: 1
Enter first number: 1
Enter second number: 1
Result: 2

Choice of operation:
1 - Add
2 - Subtract
3 - Multiply
4 - Divide
q - Quit
Enter Choice: q
```

```
● brandon@mac CS449_Project % /usr/local/bin/python3 "/Users/brandon/CS449_Project/Sprint 0/Test_Calculator.py"
.....
-----
Ran 4 tests in 0.000s

OK
❖ brandon@mac CS449_Project %
```

Source of the code was written by me, can be found in the github link under sprint0

3. GUI programming (4 points)

Write a GUI program in the language you have chosen for your Solitaire project. The GUI of your program must include text, lines, a check box, and radio buttons. In this assignment, any GUI program of your own work is acceptable.

Attach here (1) the screenshot of your program execution and (2) the source code of your program.

Code can be found in the GitHub link under the sprint0 Folder
